FOR IMMEDIATE RELEASE

CIT Relay & Switch offers ARL Capacitive Touch Switch

Minneapolis, Minnesota – CIT Relay & Switch announces the addition of the ARL capacitive touch switch to our ever broadening product line. This switch provides an embedded capacitive touch slider functionality with multiple options and appearances. Options include an addition of a pushbutton switch, a vibration motor to provide feedback to the user and a timer for time-demand programs. The ARL Series is fully customizable. Contact CIT Relay & Switch today to start building your custom part number.

Common applications for the ARL Series capacitive touch switches include audio/video equipment, automotive, lighting, instrumentation and appliances. Pricing is dependent upon options and volume. CIT Relay & Switch lead time is six to eight weeks.

CIT Relay & Switch, a division of Circuit Interruption Technology, Inc., manufactures a broad array of automotive, telecom, security, industrial and audio relays and switches in thru-hole, panel and surface mount styles. CIT Relay & Switch products are supported by a worldwide network of distributors and sales representatives. For more information about the CIT Relay & Switch ARL Series switch or any of the CIT relay or switch products, contact CIT Relay & Switch, 14680 James Road, Rogers, MN 55374.
